

ROTARACT CLUB OF JIT

The main objective of our club is to serve the society and in the process obtain the knowledge and experience to help in bringing about personal growth.

The installation of the members this year was done on September 16th 2017 the Guest of Honour Rtn Prakash Raikar, Asst. Governor of Dist 3190.

Rtn. Dr Rudresh Kumar K.J

Director Vocational Services 2017-18

The Following activities are carried out

Gift Box

Our first project was the “Gift Box”, lead by the Jt. Secretary Varun. The objective was to collect clothes and other articles from the students and donate them to children of orphanage. This project was inaugurated by Dr. Mohan Kumar (Vice Principal and HOD Dpt. of Mechanical Engineering).

Boxes were placed strategically around the campus and many students contributed ardently to the children in need.

JIT BIOPARK

The next project we undertook was the “JIT Biopark”, lead by the Vice President Ruthvik L Bhat on 28th September 2017. We planted around 25 Mahogany saplings at the college premises and helped nourish them. The backyard of Block A was renamed as "JIT BIO PARK"(As suggested by our mentor Dr. Rudresh Kumar). This was a

small step in helping to create awareness about the importance of trees.

CLEANATHON 2K18

Our next venture was inspired by the words, “A clean person isn’t one who keeps away from dirt, but one that takes the time and effort to tidy-up a dirty environment.” Our goal was to clean up the entire campus of JIT and make it free of non-biodegradable waste.

How we accomplished....

Each of the eight blocks of our campus was assigned to a group of members, each led by a board member. Under the guidance of our Principal Dr. Gopalakrishna, our mentor Dr. Rudresh Kumar and our President Nishanth Bobbili, each member actively participated in collecting the waste and made the venture successful.
