WORLD ENVIRONMENT DAY

DATE: 05/06/2024

PLACE: JIT GROUND

On the occasion of **World Environment Day (WED)**, a **Cleanliness Drive** was organized on **05 June 2024** from **9:30 AM to 11:30 AM** with the objective of promoting environmental awareness and encouraging individuals to take responsibility for preserving and protecting nature. The program aimed to instill the values of cleanliness, sustainable living, and environmental conservation among the participants through active community involvement.

World Environment Day, celebrated annually on **5 June**, is the **United Nations' principal platform for encouraging global awareness and action for environmental protection**. It highlights the urgent need to address environmental challenges such as pollution, climate change, deforestation, biodiversity loss, and improper waste management. Every year, millions of people across the world—including governments, educational institutions, businesses, and community organizations—participate in activities that promote sustainable practices and inspire positive environmental action.

As part of the observance, participants actively engaged in cleaning the campus surroundings by collecting litter, removing plastic waste, and ensuring the proper segregation and disposal of garbage. The drive also served as an opportunity to spread awareness about the importance of maintaining clean public spaces, reducing the use of single-use plastics, practising waste segregation, and adopting eco-friendly habits in daily life.

The initiative not only enhanced the cleanliness of the surroundings but also reinforced the importance of collective responsibility in protecting the environment. It encouraged participants to become environmentally conscious citizens and motivated them to continue contributing towards a cleaner, greener, and more sustainable future through responsible actions and community service.
